**Subject:** Dimock Update

-The CICs continue to receive and respond to numerous e-mails from residents in the Dimock area who are questioning the validity of our sampling results and asking to see the data from homes we tested. The CIC is directing them to the website to view the sampling plan, and emphasizing that we can not share names and address with the public.

-The CICs will participate in residential appointments on Thursday and Friday to go over the data results and answer questions.

-A staffing plan is being worked out to support the next round of data results and appointments.
